EDUCATION

Rensselaer Polytechnic Institute

Bachelor of Science, Computer Science (Artificial Intelligence Track).

Relevant Coursework: Computer Science 1, Data Structures, Discrete Mathematics, Introduction to Algorithms (In Progress), Mathematical Foundations of Machine Learning (In Progress), Principles of Software (In Progress)

Troy, NY

Dec 2027

EXPERIENCE

Undergraduate Researcher

Rensselaer Polytechnic Institute

- Conduct research on a GenAI-Enabled Communication Simulation project.

Sep 2026 – Present

Troy, NY

Handshake AI Fellow

Handshake AI Fellowship

- Selected to evaluate domain-specific AI outputs and contribute feedback toward improving large language model performance.

Sep 2026 – Present

Remote

PROJECTS

FlashLearn

- Led a team of 4 to architect and build a full-stack flashcard platform supporting deck creation and test-taking, using React, TypeScript, and Vite.
- Integrated Supabase for user authentication, database storage, and retrieval of flashcard and test result data.

SongFinder

- Built a full-stack application enabling users to reverse-search lyrics to identify songs.
- Integrated the Genius API to retrieve and process song data based on user-provided lyrics.

RPI GPT

- Developed the frontend interface for an LLM-powered chat application using TypeScript and Tailwind CSS.

ACTIVITIES & LEADERSHIP

RCOS (Rensselaer Center for Open Source)

Contributor

- Contribute to student-led open-source software projects through RPI's open-source development program.

Aug 2025 to Present

RPai (RPI Artificial Intelligence Club)

Member

- Collaborate with a team of student developers to build club software projects.

Nov 2025 to Present

SKILLS

Programming Languages: TypeScript, Python, C++, JavaScript

Web & Frameworks: React, Tailwind CSS, Vite

Tools & Platforms: Git, GitHub, Supabase, Microsoft 365
